

The Monitor

Push, Push, Push! Go, Go, Go! Rush, Rush, Rush! Sounds like a normal day doesn't it? We all have schedules to keep and often they become quite hectic, as we need 26 hours in the day to complete our agendas.

In 1 Thessalonians 5:17,....Paul says we should, "Pray without ceasing." Hey,....Paul didn't know what days would be like in this day and age! I couldn't possibly be expected to stay in prayer 24/7, now could I?

Ah,....but prayer is simply keeping that line of communications open between ourselves and God. Sort of like the baby nursery monitors! You simply turn it on and you can hear the child's every breath, every move and every cry!

Our Father is like that! He wants us to keep the monitor (prayer) on, so He can hear our every thought and meet our every need.

Next time you're in a rush,....turn on your prayer line and let the Lord know you are listening! It can truly soothe the soul and make that hectic day go down a lot easier!

God Bless
Bro Phil
